CLAY CITY, KY., THURSDAY, MARCH 25, 1909.

NO. 12.

Horrible Accident.

Tuesday morning while burning some trash in the garden the clothing of Mrs. Drusie Wright, widow of the late B. Frank Wright caught fire and burned the body horribly. She ran to a pond near by and extinguished the flames, but she was so seriously burned that she passed away early yesterday morning. Her son and only child John T. Wright, of Illinois has been telegraphed for, when the funeral arrangements will be made.

She is survived by her son above mentioned, and three brothers, Messrs. R. T. Kennon, J. M. Kennon and Lyle Kennon, and three sisters, Mesdames Ann French, Jennie Russell and J. W. Williams all of this county.

The "Peace Oaks."

The great oak trees in the garden at the White House are known as the "Peace Oaks." They were planted previous to the Civil war by John J. Crittenden and James B. Beck, of Kentucky. These men, who were representing the state of Kentucky in the United States senate, attempted to defer the war by means of a peace conference. Their failure was symbolized by planting two acorns, from which grew these carefully guarded trees.

Two small seedling oaks—"Peace Trees"—sprouted from acorns the fruit of the "Peace Oaks," have been sent from the botanical gardens in Washington to be planted in one of the public parks in Kentucky.

Careful investigations show that the average business man walks a mile in 18½ minutes while the ordinary loiterer who never had any business requires 29 minutes to walk the same distance.

New Mail Order.

The postal authorities at Washington recognizing the liability of postmasters to make mistakes in getting letters in the wrong boxes, have fixed a penalty of 200 dollars on persons taking mail out of the office other than their own and not returning it at once. This Law also includes newspapers. The excuse that it is the postmaster's fault makes no difference. If you have been getting other people's mail you had better take warning or you may get yourself into trouble.

Getting Busy.

We notice that our Congressman John W. Langley is working overtime trying to redeem some of his campaign pledges—to build a dozen bridges, government buildings, 13,000 miles of turnpikes, besides placing all the old home guards on the pension list and many other such items too numerous to mention. Now, John, don't forget our bridge, we are needing it pretty badly these days.—Estill Herald.

Dies from Diphtheria.

A little son of Mr. and Mrs. Oscar Milton, who returned from this city to Illinois a few weeks ago, is dead of diphtheria. Four other of Mr. Milton's children have the same disease. The bereaved parents have the sympathy of a host of Kentucky friends in this and Estill county their former home.

At the recent examination in Prof. Tracy's private school in which he offered a prize for best grade, the metal was awarded to Miss Blanche Shearer, she gaining an average of 99 %. Misses Jessie Gaylord and Martha D. Rose were close seconds and made an average of 98 %.

Easter comes this year the second Sunday in April—the 11th.

Cash Graves Insane.

Cash Graves, the daring and for quite awhile successful horse-thief, is insane in the Lexington asylum, having been transferred there from the penitentiary recently.

Graves made a rade through here about twelve years ago with two stolen horses, officers closely pursuing. He was overtaken just outside the city limits on the Spout Spring road and fired at when Asa Snowden was shot instead and came near dying. Graves here eluded the officers and moved to Mssouri where he reformed and married, but was finally found by the Kentucky authorities and brought back to this state, tried and pardoned. He lived a reformed life for a few years after, but finally broke out in his old job, stole two horses, and was sent to the pen from Grant county where he was confined when he went insane.

Small-Pox in Powell.

Andy Ledford living on Snow creek, this county, has broken out with small-pox at his home. Dr. Martin is attending him and reports that while he has had a pretty severe attack he is getting along very nicely now. Several exposures in the family have been made, but aside from this it is likely that the disease will not spread further. Mr. Ledford has no idea where he contracted the disease as he has not been out of the county for nearly five weeks, than to Mt. Sterling court.

All of the family exposed has been vaccinated and it is thought that the disease will be confined to them alone.

Kicking out of Large Contracts.

A story comes from Lexington that several independent tobacco firms, who purchased some of the Burley Society pool last fall, had thrown many hogsheads of their purchase back on the hands of the society. By taking advantage of a clause in the contract in reference to the delivery of the tobacco, it is alleged that many independent firms may repudiate their contracts. For this cause, it is said, much delay has occurred in the payment of money due to the growers in the pool. This contingency has also had its effect on the proposed pool for 1909 crop.

We were in error last week when we stated that Miss Mary Lyle was qualified as one of the teachers' examiners. She was qualified as Notary Public. The Rev. J. M. Adams has been appointed as examiner, and he together with Supt. Irvin and Mrs. Sylvia Russel constitute the board of examiners.

Mrs. W. N. Bush is receiving a most beautiful collection of millinery and millinery requisites for the Spring trade. Mrs. Bush possesses superior ability in making and trimming hats to order and to please. See her announcement in this issue of the Times.

Judge Allie W. Young, of Mt. Sterling, is being prominently mentioned as a Democratic candidate for Governor of Kentucky.

Who Pays the Bill.

After all the to-do that preceded it, the Teddy administration ended in a farce, says an exchange. His expedition to Africa was to be half paid by the Smithsonian Institute. The joke of this is, that he, as President, was the head of the Institute when the generous offer was made him—by himself. But that is not all. The Institute went after money for him, and is said to have collected \$25,000 more. Five thousand dollars of this came from Harriman, the man Roosevelt so vehemently denounced, and \$5,000 from the Rockefeller interests which he tried so strenuously to destroy! This completes the farce of it. No wonder the President turned pale the minute his stunt was over, and left the stage. The applause was deafening and the laughter a general thing.

Indirect Taxes.

Indirect taxes is the easiest way to skin jaspers who can't think clearly. Most any fellow you meet cannot tell you how much he actually pays for the support of the national government. It is in the price of his food, clothing and other things, hid away is schedules of original costs, and he doesn't know that he pays anything. Most of them think the foreigners are paying the tariff. Do you wonder that such easy suckers are skinned out of a million a day?

A Little Dry Weather.

Up till yesterday we had no rain to amount to anything for more than a week. The roads have dried up wonderfully and are now about right to travel were they not quite so rough. Early gardeners have gotten in some work.

To Consult the Will of People.

Indications are that President Taft in making Federal appointments in the South intends to consult as far as possible the wishes of the Senators from the states in which the offices are to be filled. In pursuance of this policy the President has had an interview with some Southern Senators regarding the distribution of some offices in their states.

To Remove Stumps.

Bore a large hole in it to the depth of about fifteen inches; put into the opening a handful of saltpeter and fill with water. Plug the hole and allow it to remain closed for about four months.—Then remove the plug and pour about a gallon of kerosene into it to saturate the stump. Set the mass of wood on fire and the whole thing, roots and all, will be consumed.

Oil from Cackle Burr.

Our people will be glad to learn that an oil is now being extracted from the much despised and bothersome cackle burr. A fine grade of oil is being extracted from the burr in at least one mill in the South.

Monday March 22 was the summer solstice on which date the days and nights are everywhere of equal length. The days will now gradually grow longer until June 22 when they take a turn for longer.

When to Break up Bluegrass.

Don't break up your good blue grass pastures. Missouri farmers say that if a first-class blue grass pasture is broken up and put through a rotation it will take from ten to twenty years to get as good a blue grass pasture in its place. Henry Wallace says he has never been able to secure as good a pasture of blue grass on any land that has ever been broken up as he could secure by seeding it on a wild prairie and pasturing closely until the blue grass gets a good hold.

Blue grass pasture properly handled will increase in value from year to year, and he often advised farmers not to break up their blue grass pastures or suffer them to be broken up until their youngest grandchild is 21 years old. They will not, however, get the full benefit of blue grass pastures if they merely pasture them and let them alone; nor will they if they pasture them too closely. They should study the nature of blue grass and its nutritive requirements.

Two periods of growth—one in the spring and one in the fall. It takes a rest about the first or the middle of July and is not ready to begin work again until the fall rains come. The farmer who pastures blue grass into the ground these two months can't well kill it, but he can seriously injure it. It is almost impossible to kill out a once thoroughly set blue grass sod on land to which it is adapted.

The grub worms may get into it and every spear of grass standing you can strip the sod off and you would a carpet

off the floor, but there is always enough seed left to reseed it if left alone. The man who turns a lot of experienced brood sows into a pasture thus infested and lets them do their own sweet will, shuts his eyes till they are through and then harrows it over takes a wise course. He takes a still wiser course if before he harrows he sows some clover and timothy seed to occupy the ground until the blue grass gets thoroughly at work again.

Therefore, avoid close pasturing the hot season. If you must pasture during the hot season, pasture lightly during the early part of the year, so that there will be plenty of grass for the cattle without gnawing it into the ground. If, however, you would get the full benefit, disk it every three years, thus preventing it from getting sod-bound, and at the same time sow some clover seed in order to supply it with nitrogen.

There are some pretty good bluegrass pastures not very far from Clay City and there should be more. There can be more if our people would only try, by sowing the seed and heed the advice given above.

The Difference.

Gov. Willson says the State of Kentucky will be not less than \$2,000,000 behind before the trouble can even partially be relieved by incoming tax. It means that we have a nice lot down at Frankfort. For instance let's compare Willson with Beckham. Beckham went in as Governor February 1900 with no money in the Treasury and \$500,000 in outstanding bonds issued by the Bradley administration to pay running expenses. During his administration these \$500,000 bonds were everyone paid, a new capitol erected and paid for to cost \$1,000,000. The State out of debt and left \$1,400,000 in the Treasury. Willson thus found \$1,400,000 in the Treasury, the state out of debt and a new capitol paid for. Eighteen months after he went in he announces from his own lips that there is no money in the Treasury—\$1,400,000 left by the Beckham administration all gone—and the state now nearly \$2,000,000 in debt. Do you think a wise move was made when the people of the state made this change?

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O.

Stomach Distress.

Every family here ought to keep some Diapepsin in the house, as any one of you may have an attack of Indigestion or Stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a sour stomach five minutes afterwards.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of Indigestion.

Ask your Pharmacist for a 50-cent case of Pape's Diapepsin and take one triangle after supper to-night. There will be no sour rising, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for all stomach misery, because it will take hold of your food and digest it just the same as if your stomach wasn't there.

Actual, prompt relief for all your stomach misery is at your Pharmacist, waiting for you.

These large 50-cent cases contain more than sufficient to cure a case of Dyspepsia or Indigestion.

Now that's queer, isn't it? But we'll make it plain to you. You see, March is the first month of Spring. And according to all the rules of the game it ought to be the first month of Spring trade. But it isn't always. Especially so in the slower moving stores where things are never a-hurry until the customers make them. Sometimes it's April before some folks do any shopping at all. Now, we are going to try to change this Spring—This March. We are going to start Spring trading off right on the first day of this month. You see you might as well do it now and get it off your mind early. Besides, you have the advantage of early Spring selections—advance showings that have been coming to the store for some days past. And then there is quite a good sprinkling of bargains left from last winter.

The prices on these latter will be cut to the very bottom of possibility in order to run them out during the first fifteen days of this month. **Coupons given on all Purchases.**

THURSDAY, Mch. 25, 1909.

LOCAL BREVITIES.

Born, Tuesday, March 23, to Mrs. Cliff Stokeley, a son.

Miss Mollie Johnson entered Stanton College this week.

Mrs. Margaret Richardson, of Lexington, visited friends here Monday.

Reuben Tipton, of Winchester, was here the last of the week on a business mission.

Mrs. Ellen McKinney visited relatives in Madison county a few days this week.

Mrs. A. Mountz has been very sick for some time but is now improving very nicely.

Miss Patsy Bush has returned from a visit to Dr. and Mrs. E. R. Bush at Winchester.

C. W. Barnett, of Winchester, is here a few days looking after some business interests.

Judge W. T. Adams was called Monday to Madison county to see his sister, Mrs. Annie Cruse, who is very sick.

Oscar Mackey, who has been confined to the house for three weeks with rheumatism, is now able to go about town again.

Notwithstanding the recent freezes the fruit crop is still safe and peach buds, early plums and pears are just ready to burst through.

President Taft's inaugural address contained five times as much as President Roosevelt's did and more than that of any other President except William H. Harrison.

Choice home grown Early Rose seed Irish Potatoes for sale.

Mrs. Nannie Pryor, Spout Spring, Ky.

The big planing mill of Swann-Day Lumger Company which has been closed down for several months, will start again for another run.

Mrs. John T. Hazelrigg, whose death notice appeared last week, revived after the item was printed, but passed away again. The remains were taken to Mt. Sterling Saturday for interment.

Kills Would-be Slayer.

A merciless murderer is Appendicitis with many victims. But Dr. King's New Life Pills kill it by prevention. Oklahoma farmers have formed a cooperative organization which, if present plans are carried out, will enter the meat-packing business and will also build elevators at every grain shipping point in the State.

It Saved His Leg.

"All though I'd lose my leg," writes J. A. Swenson, Watertown, Wis., "Ten years of eczema, that 15 doctors could not cure, had at last laid me up. Then Bucklen's Arnica Salve cured it sound and well." Infalible for Skin Eruptions, Eczema, Salt Rheum, Boils, Fever Sores, Burns, Scalds, Cuts and Piles. 25c at all drug stores.

A league to promote refinement among young men has been organized by a number of young girls of Morocco, Ind. Among other things, the girls assert, that the failure of a man to take the home paper, is an evidence of a lack of intelligence and that he will be too stingy to provide for a family and educate his children.

The Lurid Glow of Doom

was seen in the red face, hands and body of the little son of H. M. Adams, of Henrietta, Pa. His awful plight from eczema had, for five years, defied all remedies and baffled the best doctors, who said the poisoned blood had affected his lungs and nothing could save him. "But," writes his mother, "seven bottles of Electric Bitters completely cured him." For Eruptions, Eczema, Salt Rheum, Sores and all Blood Disorders and Rheumatism Electric Bitters is supreme. Near Death in Big Pond.

It was a thrilling experience to Mrs. Ida Soper to face death. "For years a severe lung trouble gave me intense suffering," she writes, "and several times nearly caused my death. All remedies failed and doctors said I was incurable. Then Dr. King's New Discovery brought quick relief and a cure so permanent that I have not been troubled in twelve years." Mrs. Soper lives in Big Pond, Pa. It works wonders in Coughs and Colds, Sore Lungs, Hemorrhages, LaGrippe, Asthma, Croup, Whooping Cough and Bronchial affections. 50c and \$1.00. Trial bottle free. Guaranteed by all Druggists.

Said to be Fine.

Few people here know that you can cure that dread American disease, Rheumatism, with just common, everyday drugs found in any drug store. The prescription is so simple that any one can prepare it at home at small cost. It is made up as follows: Get from any good prescription pharmacy Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking in a bottle and take in teaspoonful doses after each meal and at bedtime. These are all simple ingredients, making an absolutely harmless home remedy at little cost.

Rheumatism as every one knows, is a symptom of deranged kidneys. It is a condition produced by the failure of the kidneys to properly filter or strain from the blood the uric acid and other matter, which, if not eradicated, either in the urine or through the skin pores, remains in the blood, decomposes and forms about the joints and muscles, causing the untold suffering and deformity of rheumatism.

This prescription is said to be a splendid healing, cleansing and invigorating tonic to the kidneys, and gives almost immediate relief in all forms of bladder and urinary troubles and backache.

Learn to laugh. A good laugh is better than medicine. Learn how to tell a story. A well told story is a welcome sunbeam in a sick room. The world is too busy to care for your ills and sorrows. Learn to keep your own troubles to yourself. Learn to stop croaking. If you cannot see any good in the world, keep the bad to yourself. Learn to hide your pains and aches under pleasant smiles. No one cares whether you have the earache, headache, or rheumatism. Don't cry. Tears do well enough in novels but are out of place in real life. Learn to meet your friends with a smile. A good humored man or woman is always welcome, but the dyspeptic is not wanted anywhere and is a nuisance as well. Above all, give pleasure. Lose no chance of giving pleasure. You will pass through this world but once. Any good thing, therefore; that you can show to any human being, you had better now; do not defer or neglect it, for you will not pass this way again.

SOLD IN TOWN

Shears & Sawbuck

Shears and Sawbuck kept a store Such as never was before. City folks they wouldn't sell, Couldn't let them have a smell. Fetched their money—but by jing, Couldn't buy a blessed thing. Couldn't meet 'em face to face And then sell 'em with good grace.

Country trade was what they sought, Folks who'd pay for what they bought 'Fore they saw it, hide or tail. They sent a catalogue by mail Out to every blessed one Gettin' mail at Possum Run. We set up at night and read, When we'd order been in bed.

Book was 'bout as big as sin— Had a lot of pictures in. And a list of merchandise, Every kind and every size— Givin' prices that they swore Knocked out any country store. Looked so straight and seemed so true I bit at it—Jim did too.

Jim's my neighbor 'cross the way, Best man ever worked in hay; Just let him top off a stock, Sheds rain like a turtle's back. Pleasure just to see him work, Never knew ol' Jim to shirk, Swings a scythe like it was play, Love to watch him in his way.

Well, we, like a pair of fools, sent off; Got some hayin' tools. Jim got a harness and a plow, I, a range—I see it now. Drat the thing, it was so light Used it for a torch at night; Threw the darn thing in the yard, Use it now for renderin' lard.

'Fore Jim used the plow an hour Found the thing wouldn't scoure; Tried his harness—broke a tug— Sought for solace in his jug. In the cooler all that night Jim reflected on his plight; In the morning, Richard Stout, Hardware merchant, bailed him out.

Jim said after that he'd stick Close as bark to good ol' Dick. Since he left the Possum jail Says he won't buy goods by mail; Says Dick's cheaper anyhow— Might have saved some on the plow, On the other goods some more, At his old friend's hardware store.

Jim says, we can't sell no truck To sich folks as Shears Sawbuck. They'll take all our cash away, But won't buy our corn or hay. That seemed purty strange to me, So I told ol' Jim I'd see— So I wrote them that night Just to see if Jim was right.

As't them "what they's pay for oats? Could they use some likely shoats? Had about four tons of hay I could ship 'em right away. Could I furnish Mr. Shears With his family roastin' ears? Also would my friend Sawbuck Buy some of my garden truck?

Answer came one summer day. Said they couldn't use our hay; Couldn't use our oats or shoats, Didn't like our billy goats. When they needed truck to eat Bought it down on Water street— Sorry, but they must refuse Anything but cash to use.

I sat down and wrote 'em then: "Hate to trouble you again, But I want to thank you, sirs, For your bunch of cockle burs; If you love your fellow-man, Do him, good sirs, when you can— While our merchants sweetly sleep Shears & Sawbuck shear our sheep.

The Year Without a Summer.

The year 1816 has a remarkable cold weather record and is known as "the year without a summer." In that year there was a sharp frost in every month, and the people all over the world began to believe that some great and definite change in the earth was taking place. The farmers used to refer to it as "eighteen hundred and starve to death." Frost, ice and snow were common in June. Almost every green thing was killed, and the fruit was nearly all destroyed. During the month snow fell to the depth of three inches in New York and Massachusetts and ten inches in Maine. There were frost and ice in July in New York, New England and Pennsylvania, and corn was nearly all destroyed in certain sections. Ice half an inch thick formed in August. A cold north wind prevailed all summer.
